PSY 441 Capstone Project

Jane't Ceceile Morrison

Introduction

This repository contains the data, analyses, images, and presentation in order to reproduce my experiment. The data come from my Verbal Feedback on Intrinsic Motivation experiment. They were processed and analyzed in R. Results of these analyses were written up in a poster that was presented during week 10 of finals week to my instructor Dr. Knapp.

Guide to the Repository Contents

- **data**: a folder containing the following.
    - data files
    - codebook that explain the data in the data files.
    - analysis files
        - analysis.Rmd: An R Markdown file that walks through my data analyses and creates the figure I used in my poster.
        - IMIProject.csv: the data that contains variables, pre and posttest Intrinsic motivation scores
        - fig1.png: The figure I created for the presentation
- **materials**: a folder containing materials used in the experiments.
    - IRB Approval.pdf: an edited version of IRB approval for this project
    - Templates or debriefing information.
    - IMIPretest results & IMIPosttest results
    - Tangrams
- **presentation**: A folder containing the presentation materials that includes:
    - Presentation pdf: A presentation file used to create the poster.
    - README.md: the repository content guide
